-----APPROVAL-----OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0075 cubic feet per second, or sufficient to water 245 head head of cattle.

Work must be prosecuted with reasonable diligence and be completed on or before March 7, 1995

Proof of completion of work shall be filed before April 7, 1995

Application of water to beneficial use shall be filed on or before March 7, 1996

Proof of the application of water to beneficial use shall be filed on or before April 7, 1996

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed APR 7 - 1995

Proof of beneficial use filed _____

Cultural map filed _____

IN TESTIMONY WHEREOF, R. MICHAEL TURNIPSEED, P.E.
State Engineer of Nevada, have hereunto set my hand and the seal of my
office, this 7th day of October,
A.D. 94
R. Michael Turnipseed P.E.
State Engineer

(PERMIT TERMS CONTINUED)

This permit is issued with the express understanding and on the condition that existing grazing use of the public range by authorized users or permittees will not be impaired or adversely affected by approval and issuance of this permit.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.
